## APPLICATION FORM FOR PRODUCTION SHARING CONTRACT

### Petroleum Law 16/2009 & Petroleum Operation Regulations

**Applicants are asked to submit copies of their HSE record and information in A4 Format.**

This section applies across the entire scope of application of the regulations.

An applicant should submit details of the Health, Safety (Safety Culture) and Environment protection systems, including applicant's policy not known to Saotomean authorities and corporation wide records of the same for the last 3 years.

Harm or danger of harm to people, the environment or to installations, pipelines and equipment must be prevented or limited. A high standard of operational regularity and safety is in the interest of all petroleum industry stakeholders. To reach the level of acceptable conduct systematic procedures and assessments must be made and documented in all phases of the petroleum activities.

The applicant thus must demonstrate its HSE systems and their implementation with regard to risk reduction through the applicant's choice and implementation of technical, operational or organisational solutions. Solutions must demonstrate that individual as well as an overall evaluation attain appropriate HSE standards and also reduces future potential harm and that future use offers the best results.

Note:

ANP-STP objectives are to ensure the success of the systematic effort needed to prevent faults and dangerous situations or undesired conditions arising or developing, and to limit pollution and injury to persons and damage to equipment, a favourable health, environment and safety culture must pervade all levels of the individual activity/establishment.

ANP-STP also recognizes that a favourable health, environment and safety culture is also needed to ensure continual development and improvement of health, environment and safety.

Proposals for protection of the environment (Ref Petroleum Law Article 20.6 (c) and Chapter XIV)

Proposal for securing the health safety and welfare of persons involved in or affected by the Petroleum Operations (Ref Petroleum Law Article 20.6 (b) and Chapter XIII )
